

# CYPRES & ALTITRACK

## PERSONALIZED MILITARY SEMINARS

Presented By:  SSK Military Industries, Inc.

## SINGLE & MULTI-DAY PERSONALIZED CLASSES

We offer seminars that are tailored to an individual unit's needs and knowledge:

- Classes include the history and background of equipment versions and cover everything from *operational settings to rigging procedures*.
- Small *class sizes of 10-20 students* allow the instructor one-on-one time, providing students the opportunity to actively participate.
- Seminar attendees will receive a binder including all class information and a certificate upon successful participation.
- Instructors, projector, and classroom materials will be provided by SSK Military.

We ask the venue to provide students, a classroom, a screen, and electrical connection.  
A white board is useful, but not necessary.

**Contact SSK Military for more details, pricing, and availability.**
